Professional Summary

Senior Backend and Full Stack Engineer with about 4 years of experience designing distributed, event-driven, and serverless systems across fintech, payments, and AI platforms. Expertise in AWS microservices, Stripe payment and billing infrastructure and RAG-driven LLM applications. Proven track record of owning production workloads handling 1M+ daily events, building highly available architectures, and delivering platforms serving 70k+ users.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, Python, Node.js, React.js, Next.js, Express.js, Nest.js, Redux
Backend Concepts: REST APIs, System Design, Microservices, Distributed Systems, Event-Driven and Serverless Architecture
AWS Services: Lambda, API Gateway, S3, SQS, SNS, RDS, DynamoDB, ECS, Cognito, Textract, Bedrock, CDK
Databases & Monitoring: PostgreSQL, MongoDB, DynamoDB, Elasticsearch, Redis, Sequelize, Mongoose, Sentry
Payment & Integration: Stripe (Subscriptions, Webhooks, Setup Intents), Payment gateway, Salesforce Marketing Cloud
AI/ML: RAG, LLM Integration, Claude, Llama, Vector Databases, OCR
DevOps: Docker, kubernetes, Git, CI/CD, Serverless Framework, CodeBuild, CodePipeline

Professional Experience

BenthonLabs

October 2025 – Present

Software Engineer – Full Stack (Senior Scope)

Noida, UP, India

- Architected and owned the Stripe subscription and usage-based billing system for the MasterFFL platform (70k+ dealers), designing idempotent webhook orchestration, Setup Intents, and resilient Node.js AWS Lambda services with PostgreSQL
- Designed and implemented Elasticsearch-based search and autocomplete functionality for 70k+ dealers, achieving sub-200ms response times at scale
- Designed OCR automation pipeline using AWS Textract processing 500+ documents/week with confidence scoring and human validation; Built and operated 20+ Lambda microservices using SNS/SQS with 99.9% availability
- Developed RESTful APIs with API Gateway, Cognito JWT authentication and role based authorization enabling secure integrations, real-time tracking, and reliable webhook orchestration
- Migrated Philip Morris Japan LINE Messaging Platform to AWS Lambda serverless, designing horizontally scalable event-driven workflows handling 1M+ daily messages with 60% cost reduction; Implemented rate limiting and multi-level Redis caching for Corezoid APIs achieving 70% hit rate.
- Built CI/CD pipeline for PMJ application using AWS CodeBuild and CodePipeline enabling automated build and deployments

SMC Global Securities Ltd (Fintech)

July 2024 – October 2025

Member of Technical Staff - Backend Developer

New Delhi, India

- Built AI Agent sentiment analysis system with RAG pipeline using AWS Bedrock Claude and vector embeddings, Dynamo db and Python processing 10k+ daily interactions improving insights by 40%
- Led modernization of legacy Windows Forms RegTech application to Next.js and nest.js with serverless AWS architecture achieving 60% performance improvement
- Developed highly available URL shortener with React dashboard using AWS CDK, Lambda, API Gateway, and DynamoDB handling 50k+ monthly redirects with sub-100ms latency
- Engineered AI signature verification solution with Next.js using Textract OCR and Llama Vision achieving 86% validation accuracy

Infosys Limited

June 2022 – July 2024

Digital Specialist Engineer - Full Stack Developer

Chandigarh, India

- Developed full-stack railcar and container tracking application for Wabtec using Node.js, nest.js and React providing real-time visibility across 5k+ assets improving inventory control by 35%
- Designed RESTful APIs using Node.js and Express processing 10k+ daily requests with 99.9% uptime, leveraging Sentry for error monitoring, triage, and alert-driven debugging while integrating services with MongoDB
- Implemented Cerbos Role based and attributes based authorization across microservices enabling fine-grained access control reducing security incidents by 75%
- Optimized frontend performance by 40% using code splitting, lazy loading, and efficient state management

Education

Rajkiya Engineering College, Azamgarh

August 2018 – May 2022

Bachelor of Technology in Information Technology

Uttar Pradesh, India

Achievements

- Solved 450+ DSA problems across LeetCode, CodeChef (3 Star - 1551 rating), GeeksforGeeks, and HackerRank
